Discussion/Review of the Casey Drewry Storage Building Plan

Planner Merrill reviewed the background information and distributed the proposed storage building design options for review and discussion. (See attached exhibits 036.1b) The Design Review Commission members favored the brick exterior design. Mr. Drewry indicated the brickwork would be more like the exterior of the Drewry Realty office building and the overhead doors would be white. A gray upper fascia trim would complement the exterior design.

Motion to approve the proposed exterior details:
